#### Maintenance Report for Jan. 8, 2019

- A block wall has been started on the east side beside the recycling area. This area will be where the garbage dumpster will sit so the dumpster will not need to be moved onto the street for dumping. The cardboard bin will then be moved into the area where the garbage bin is now. This is being done because the truck used to empty the bin is now a Front Loader as compared to the old truck which was a Side Loader.
- The new retaining wall project on the north-west side of the fire pit area has been started. The concrete slab will be poured tomorrow, Jan. 9.
- We are having more problems with the Pool Cover rolling up.
   We are working with both the installation company and the cover manufacturer company to resolve the problem.

Respectfully submitted,
Blair Macgregor
